

US Hydro Tech Environmental Solutions offers a variety of approaches to capture wash water. Whether clients are looking for a temporary, portable, or permanent system, US Hydro Tech Environmental Solutions has the products and knowledge to address the need.

Proper design of a wash pad can increase the efficiency of your job site and reduce your liability. A well designed wash pad can aid in removed solids from your waste stream, increase treatment performance, reduce overall maintenance, and prevent all liquids from leaving.

US HydroTech is a single source provider for all wash pad needs. We design, build, and supply all components for wash pads.
